PROFILE

Results-driven Java Developer with 4 years of hands-on experience. Skilled in full-stack development with expertise in Core Java, Spring Boot, and RESTful services, along with a solid background in Docker, Kubernetes, ansible and CI/CD pipelines. Focused on optimizing system performance and ensuring effective service integration. Committed to applying technical expertise to solve complex problems, drive impactful results, and contribute meaningfully to organizational success.

TECHNICAL SKILLS

Programming Languages and Frameworks:: Java 8, Spring Boot, Spring Data JPA, Angular
Database and Data Management:: MySql, MongoDB
DevOps and Infrastructure:: Linux, Git, Ansible, Kubernetes, Helmcharts, Docker, Amazon Web Services (AWS)

PROFESSIONAL EXPERIENCE

Software Developer   Jun 2023 – Present
Recrosoft Technologies Pvt. Ltd (Client: Flipkart)   *Bengaluru, India*

- Engineered health check scripts, REST APIs, Helm charts, and CI/CD pipelines to streamline application deployment.
- Introduced in memory caching in an existing application, reducing latency by over **40%**. Implemented a scheduler to refresh the cache periodically without user interaction.
- Contributed to the implementation of the new alerting stack, improving system reliability and increasing alert accuracy by **30%**.
- Designed and implemented API contracts for an automated migration tool, converting legacy alerts to new stack with more than **80%** auto-migration of alerting rules for 100+ teams.

Software Engineer   Sep 2022 – Jun 2023
GlobalLogic India Pvt. Ltd.   *Bengaluru, India*

- Spearheaded the development of a POC Job Portal from scratch, covering both design and execution phases.
- Integrated services using Eureka for discovery, with RestTemplate handling communication and RabbitMQ enabling asynchronous messaging.
- Increased code quality by **20%** through rigorous unit testing using Junit, Mockito and fixing code smells identified by sonarqube while maintaining **85%** code coverage across microservices.

Programmer Analyst   Dec 2020 – Sep 2019
Cognizant Technology solutions   *WFH*

- Trained in Core Java, AngularJS, Spring Boot, AWS, Unix & Shell Scripting, and MySQL.
- Developed a POC of Pension Management System with Angular frontend and Spring Boot microservices (Pension Process, Pensioner Detail, Authorization). Implemented JWT authentication and deployed services on AWS Fargate, with a CI/CD pipeline for building and deploying Docker images.
- Worked on 2 Data Privacy projects, managing data sources, troubleshooting connectivity, and executing scans via the BigID tool.
- Performed upgrade of the BigID tool across PROD, DEV, and UAT servers using Docker and Unix commands.
- Created API connectors in Spring Boot to retrieve, filter, and send data from source endpoints to the BigID frontend.

EDUCATION

Bachelor of Engineering in Computer Science & Engineering   Aug 2016 – Jul 2020
Assam Engineering College   *Jalukbari, Assam*
Graduated with first class honors at 78.9%

Higher Secondary   Apr 2014 – Mar 2015
Gurukul Grammar Senior Secondary School   *Guwahati, Assam*
Graduated with 90.8% in Science stream
